What is DSV AS ROIC %?

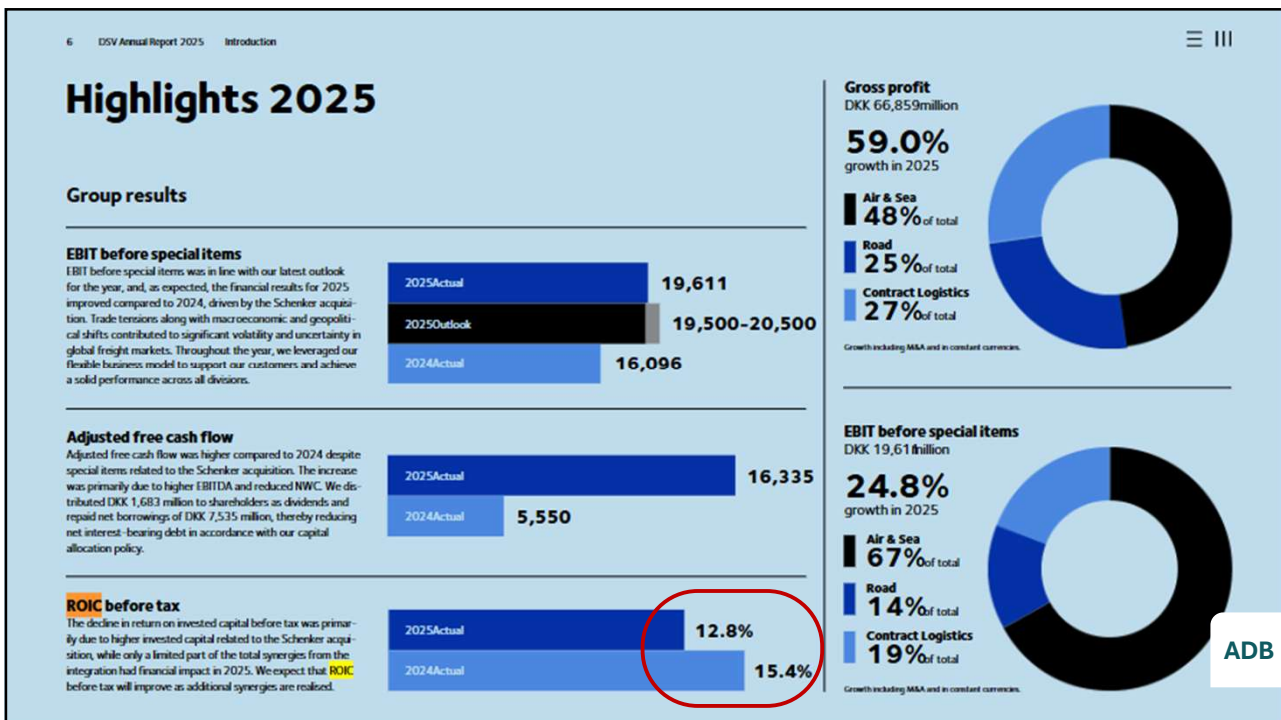

DSV AS (OCSE:DSV) -19.90% ROIC % is 5.27% as of Dec. 2025. GuruFocus rates OCSE:DSV with a GF Score™ of 96/100 and a GF Value™ of kr1,767.32 (Fairly Valued). The stock has 3 warning signs investors should review.

ROIC % measures how well a company generates cash flow relative to the capital it has invested in its business. It is also called **ROC %**. DSV AS's annualized return on invested capital (ROIC %) for the quarter that ended in Dec. 2025 was 5.27%.

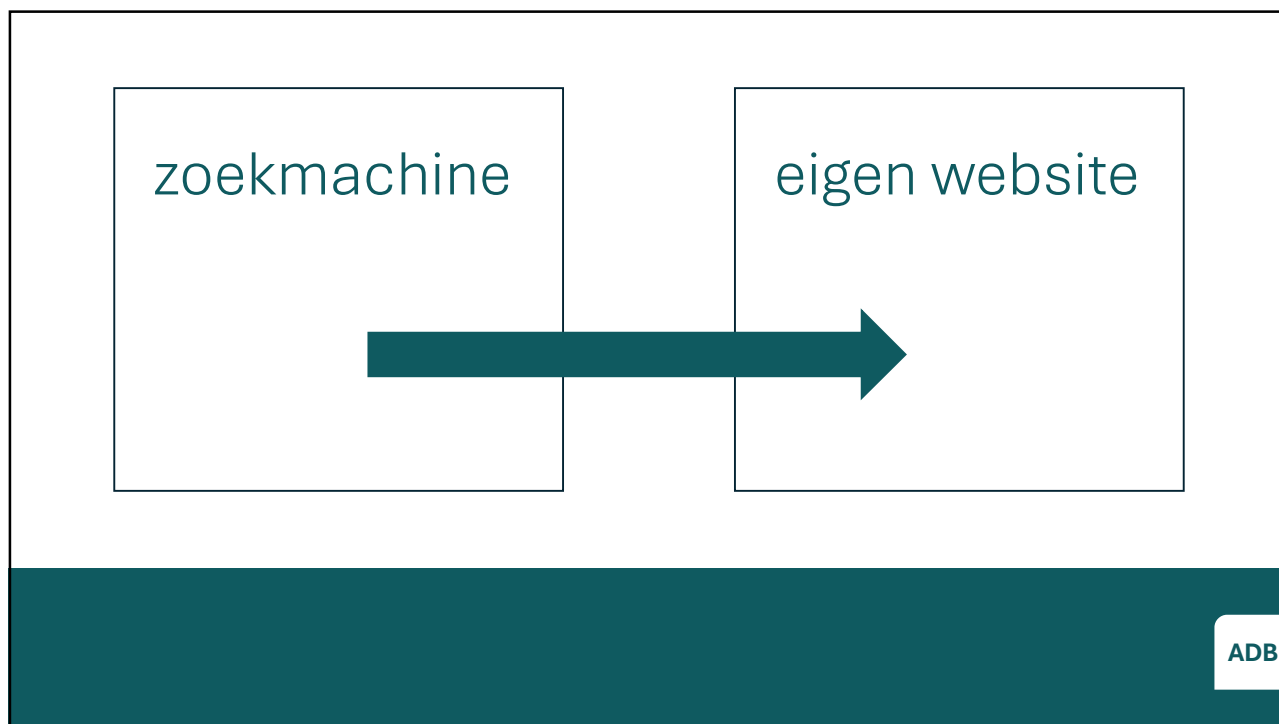

As of today (2025-03-13), DSV AS's WACC % is 3.44%. DSV AS's ROIC % is 6.72% (calculated using TTM income statement data). DSV AS generates higher returns on investment than it costs the company to raise the capital needed for that investment. It is earning excess returns. A firm that expects to continue generating positive excess returns on new investments in the future will see its value increase as growth increases.
